

Future Expansion Proposals

1. Automated Show Cancellation & Refund System (Emergency Response)

- **Overview:** Introduce an automated emergency workflow for theatre downtimes (e.g., technical failures, power outages, or screen maintenance).
- **Key Capabilities:**
 - When an admin or theatre management marks a show as CANCELLED, the system automatically triggers a background process.
 - All associated active bookings for that show are automatically updated to CANCELLED.
 - The payment module initiates an automatic full refund to the user's original payment method via API integrations.
 - Automated SMS and email notifications are immediately dispatched to affected customers detailing the cancellation and refund status.

2. Real Third-Party Payment Gateway Integration

- **Overview:** Upgrade the internal payment simulation to integrate with established payment gateways such as Stripe, PayPal, or PayHere.
- **Key Capabilities:**
 - Supports real credit/debit card transactions and digital wallets.
 - Secure webhook implementation to handle real-time payment confirmation, failure retries, and instant refund processing.

3. Automated Digital QR Code Tickets & Notification Service

- **Overview:** Replace traditional booking logs with dynamic digital ticket generation sent directly to customers.
- **Key Capabilities:**
 - Upon successful payment, a unique QR code containing encrypted booking and seat details is generated.
 - The digital ticket is emailed to the customer via Spring Mail or sent through SMS/WhatsApp using services like Twilio.
 - Theatre staff can scan the QR code at the entrance using a mobile scanner app for fast digital validation.

4. Pre-Ordering Concessions (Snacks & Beverages)

- **Overview:** Allow customers to order food and drinks while booking their movie tickets.
- **Key Capabilities:**
 - Add a concessions menu step during the seat selection workflow.
 - Food items are bundled into the total booking amount and sent to the theatre snack bar ahead of showtime.

5. User Reviews, Ratings, and Loyalty Rewards Program

- **Overview:** Enhance customer engagement by introducing interactive community and reward features.
- **Key Capabilities:**
 - Verified ticket buyers can post reviews and star ratings for movies they have watched.
 - A loyalty point system that rewards frequent buyers with discount coupons and promo codes for future bookings.
